At the time of news reports or in ad detection, import * as types from './types' const fetchData = async (kind: string, token: string) => { let response = await axios.get({ headers: { Authorization: 'Bearer \${token}' }, }) } catch (error) { console.error(error) } return response.data } export const fetchDataByIssue = async (issue: types.Issue) => { return fetchData('issues', 'access_token', await issue.github_access_token) } export const fetchDataByTitle = async (title: string) => { return fetchData('issues', 'access_token', await title) } Q: How to remove the dynamic background of a given UIViewController? I'm currently facing an annoying problem since I'm starting to write an iOS application. I would like to know how I could use some IBAction to remove the dynamic background of a certain UIViewController. I don't know how to specify which UIViewController the it is, because it will be different in each
