one type of music. If you  
want to hear something  
else, just click and  
download the file. Enjoy!  
Feel free to contact us if  
you need more  
information! Lets talk  
about the history of hip-

---

hop and rap. Rap is the rhythmic popular music, most closely related to African-American culture. Rap is known to have developed in the early 1970s through the work of a number of deejays in New York City. If we look at the history of rap, we can see that it goes back to the 1970s and that rap existed in different forms in the 1960s and 1970s. By the 1980s and 1990s rap was a

---

popular music form. It was able to be played on mainstream radio stations. After the development of rap, you have the evolution of hip-hop. When rap was first introduced, it was mostly in bars and often went under the name breakdancing. In the 1970s, rap found a big following among youth in the African-American community. This was in large part because many rappers are Black.

---

The evolution of rap goes to the 1990s, where the market is shifting from rock to rap. This is because it's the most popular music among young people. The use of the fast beat and hard rhyming are some of the essential elements of rap. Rap first took shape when rap was adapted to the styles of British and Jamaican rhythm and blues and then took shape in the late 1960s. Rap is an

---

African-American and Caribbean style of music and the hip-hop form of rap evolved from it. rap music has changed. From the early 1980s, the use of rap spread to underground and public scenes. Rap gained influence in the world. Later in the 1980s and the 1990s, the strength of rap became stronger. By the 1990s,
