Normally it is no problem to get an older version of a driver and it should work fine. However, as you have a rooted device, you will have to use root for that, or at least make changes in the vendor's ini files. Make sure you have the tablet's original hardware warranty. It will make life easier for you. If the tablet was manufactured in China, it should be quite easy. Please do the following - Hit menu or back button from your desktop to open File Explorer window Search for "drivers" and select "hardware" from the left pane The "Device\HarddiskVolume" system folder should be located, make sure you select that folder. As you can imagine, the number of views per post are quite low. But this doesn't surprise me, as most of our posts only relate to football (i.e. soccer), and this isn't the most popular sport in the world. However, I've just checked the stats from some of my other blogs, and the number of views per post are quite a bit higher. Of course, the majority of our viewers are people who live in Canada. I suppose this means the rest of the world is interested in watching the World Cup, but I'm pretty sure that Canada's win in the final against the US will continue to make headlines in
