What's New In Farm Matters?

A useful application for the farm owners who need to keep track of multiple animals, fields and other details. It can handle multiple farm matters and allows you to store all the information in a secure database. You can use this tool for registering data about purchases, sales, movements, treatments, fertilizers and other farm related operations. Note: It is recommended to update the application from the Home tab before creating your database. Table of

Contents Features: Consistency in the application Recording of farm specific details You can create multiple database You can transfer the data between databases Automatic Date and Time Month View Unlimited database size Import CSV files Export CSV files Tabs Structure Home View Database Utility Settings Help Why to choose Farm Matters application Consistency A consistent database is the first requirement. All the data will have to be the same every time it is entered into the

application. This consistency will keep you updated on what is happening on your farm and you will be able to see how your farms is developing. Farm Specific Details You can record the details of your farm in a few specific categories which include: Animals Purchases Sales Moves Treatments Fertilizer Supplies Operations You can record your farm specific details by completing the questions listed above, the data will be stored in a database which will be unique to your farm.

Multiple databases You can create multiple databases for storing information about your farm which can be imported or exported between them. This feature is useful in case you need to keep multiple databases on the same computer. Auto Date and Time There is no need to waste time manually entering date and time when you can use the built in feature. It is recommended to start recording farm related data from the beginning of a month. Month View You can have an instant visual comparison of

the data collected in a month. This is very useful in case you need to get an overview of what is happening in your farm or to compare data collected in previous months. Unlimited database size With an unlimited database size you can keep track of all the data which are required for the database. As a farm owner, the most important information which you want to record is sales, treatments, etc. Import/Export CSV files You can easily import or export data from CSV files which will make the data

transfer more convenient. Tabs Structure
You can change the structure of the tabs
which can make the application more
useful. You can arrange the tabs in the
application in any order which you want.
The Farm Matters application is now
available for the Android devices

System Requirements:

Approx. 3-5GB of free space available on your PC 4GB+ RAM Intel® Core™ i5-4590 NVIDIA GeForce® GTX 980 with 4GB VRAM Included in the package: ODST For Mac 3.0 ODST For Windows 3.0 *Empire: Total War is the third part in the epic series of historical battles *Free Updates* *New Campaigns* *New Game Modes* *New Leaders
