Apr 16, 2008 26 13 The Nexus series is an assortment of over 1500 sounds featuring many sounds that are tailored especially for Nexus 2. Make your music more innovative and unique with the Nexus series! NEXUS - ENTER THE FOURTH DIMENSION . Version 1.4 . 8K. In the NEXUS series, we've created a large number of sounds for Nexus2-style midi features, such as the dual channels, hot keys and the additional effects section. All the sounds have been recorded precisely, sampled and mixed using premium instruments, such as an acoustic violin and a guitar. We use only the best methods to ensure you receive the best possible sound, quality and effect. “, stardrive-online.de, NEXUS, Nexus, extract-music.biz. The Nexus series is an assortment of over 1500 sounds featuring many sounds that are tailored especially for Nexus 2. We're here to provide you with only the best sounds to further enhance your creativity. There are many different genres in the Nexus series, which include a large amount of different genres. All the sounds are custom made, from the late 90's early 2000's in the US with european focus. All of our sounds have been produced from our presets all the way to the actualized sounds and to the EQ, compression, volume, panning and gate settings. We really do put out the best sound quality possible with our presets, and we want to continue to do so. We don't feel there is any more sound quality at the moment, only that there is a need for more sound quality than the other manufacturers make available, which is why we created the Nexus series. The Nexus series is focused more on providing you with quality sounds than with the least amount of sound. Nevertheless, if you need only one sound in the Nexus series you can use the files that we provide for you to edit as you wish. We guarantee all our sounds will work with your program of choice, there are very few sounds that won't work with both of the major DAW's (ProTools or Ableton Live).
