All the reminder, appointment and to-do's reminder etc can be easily schedule, send to other persons, local or remote, using just five of the main key-strokes. Guitar Tuner Pro is a

What's New in the CALENDAR?

The calendar program will display either a digital or analogue clock in a consistent, visually appealing way. Multi-purpose tool For those who also use the time program in Windows, the developed program will function as a replacement of your desktop clock to give you the best of both worlds. The application is quite convenient to install since it provides one executable file that works with both, 32-bit and 64-bit editions of Windows operating systems. You can keep the default settings or customize the displays of an analogue and digital clock, as well as the colour of their background and the clock face. In addition, you can also use this program to check the time. The Calendar - Clock - Clock represents a nice set of features which will allow you to check the time and work with appointments as well as reminders. AirShare Bluetooth filessharing program Automate your Bluetooth operation with the AirShare filessharing tool. Universal Windows app This top-down style game intends to revolutionize the original Snake game with its own twist. The executable tool will create the necessary platform for you to enjoy Snake-like games, play them with other people and share your creations with the entire world. You will have an intuitive platform from where to share and interact with other people. AirShare aims to assist users with the establishment of a personal wireless network that you can plug your devices into and share the files you want with them. Don't forget to download the latest version for a safer and smoother connection process. Top-down style Snake-like games for Windows 10 Remind me later is a simple note-taking tool for Windows 10 with a simplified user interface. Windows Store: Screenshot Abandoned program with a lot of potential The tool supports Drag and Drop functions. It is the only one that offers a simple, smooth and straightforward setup that requires no memorizing or using of various settings for you to begin using the app in its entirety. If you want to log important information, this tool allows you to quickly and easily create task lists, check them off, and even archive them on a regular basis. You can go to any time, regardless of the fact that your calendar will indicate a specific day and month and you can add in the necessary text or image that you want to be included in the newly created task. Last but not least, the accomplished scheduler aims to create a hassle-free workflow that can be streamlined by anyone, regardless of the fact that most of
