Open Sitemap Builder is a tool that helps you to generate a sitemap file for your website. Pros: • Easy to use and easy to navigate. • Cons: • No technical knowledge needed. Overall Rating: 4.8

Open Sitemap Builder Post a Comment Cancel reply Feedback At the time of writing this comment, Open Sitemap Builder wasn't found in the App Store. If you like Open Sitemap Builder you can support the developers creating great software by giving it a "five-star" rating, taking a minute to give your review and write a couple of words to help other users make an informed purchase. A lot of people have been complaining that Open Sitemap Builder doesn't show up in the App Store. But for those of you that are lucky enough to have got it, thank you! Good: Most people seem to like Open Sitemap Builder. Bad: Not many people seem to have mentioned what's wrong with it. You know what I'm talking about. The comment has absolutely nothing to do with the actual review. Anyways, it's been pointed out by the developers that Open Sitemap Builder doesn't show up in the App Store because it's a personal project, but they are developing an update that will add it. So if you would like to use it, please feel free to email them for updates. It can take a few weeks for the app to be added to the store. It isn't anyone's fault.
